Five for Families

All of our programs are designed around the '5 strengths', for stronger families and stronger communities. Every family goes through ups and downs, the 5 strengths help us cope in those more stressful times.

Helping Kids Understand Feelings	Showing your kids how to name, understand and manage emotions.
Building Inner Strength	Keeping it together – and even growing stronger – during times of stress.
Parenting as Children Grow	Learning to support your child's growth at every age and stage.
Knowing How to Find Help	Seeking support in times of need and knowing how to accept help when it's offered.
Connecting with Others	Building a network of people who care about you and your family.

You will see these strengths being highlighted during our programs. Ask us for more information about how to make, and keep your family strong.
