

Rating of referring worker (at case closure) – investment/cooperation with Family Finding intervention

Internal evaluation – Wisconsin
2011

Overall rating of referring worker investment/cooperation with Family Finding intervention (i.e. following the model of re-establishing lifelong relationships)

(1 - 5 scale; 5 is the highest and 1 the lowest):

- 1 = Thwarts/sabotages progress
- 2 = Not open to the FF process, or defines process in a narrow or ineffective way
- 3 = Allows some progress, but may limit relationships or outcome potential in some way.
- 4 = Supports and assists with the process, but is not likely to continue efforts or plans post FF case closure.
- 5 = Supports and assists with the process and will likely continue to carry out efforts and plans post FF case closure.
