

I-41 Interstate Project Detours

If you're planning to visit our clinic in the coming months, it's important to be aware of the I-41 construction project and how it may affect your travel. Beginning in early spring and continuing through late fall, the Ballard Rd overpass and interchange will be closed as part of a major improvement project.

The Wisconsin Department of Transportation (WisDOT) has identified County Rd JJ as the primary detour route, and official detour signs to businesses will be posted along this route. However, PCAA patients are certainly able to utilize Evergreen Drive as detailed below if that route is more convenient.

Optional Detour Routes to PCAA

- **For Northbound I-41 Travelers**

1. Exit at Richmond St/Hwy 47.
2. Head northbound to Edgewood Drive and turn right (eastbound).
3. Continue to the Ballard Rd intersection and turn right (southbound).
4. Proceed to Evergreen Drive, turn left (eastbound), and continue to Gateway Dr or Lightning Drive to access Enterprise Avenue to Intertech Ct.

- **For Southbound I-41 Travelers**

- Option 1 (from County Rd N/Freedom Rd):**

- Option 2 (from 441 Interchange):**

1. Take the County Rd N/Freedom Rd exit and head north.
2. Turn left (westbound) onto Edgewood Drive.
3. Continue to Providence Avenue to reach Intertech Ct.
4. Follow I-41 southbound to the Richmond St/Hwy 47 exit.
5. Proceed as outlined in the northbound directions above.

Alternative Routes

In addition to the detours, other crossing points such as French Rd and Meade St may be used, depending on your starting point. However, the routes outlined above, especially utilizing the County Rd JJ detour routes, are designed for smoother traffic flow and ease of navigation.

Plan Ahead

We encourage all patients to plan extra travel time to accommodate potential delays and detours. As always, our team is here to assist if you have any questions or need additional guidance.

Thank you for your patience and understanding during this time. We look forward to seeing you and continuing to provide the care you need!
