

Children's Hospital of Wisconsin Endocrinology

Our endocrinology team provides comprehensive services for a variety of medical disorders of the hormonal systems. We have been a research center for clinical studies of endocrine disorders and diabetes for more than 20 years. Our diabetes program is one of the largest in the country, with more than 1,700 children with type 1, type 2 and other forms of diabetes seen in a multidisciplinary outpatient setting.

Full service diabetes care

- Office visits with a physician or nurse practitioners
- Diabetes management education for newly diagnosed patients
- Basic diabetes and self-management education
- One-on-one visits with a clinical nurse specialist or registered dietitian
- Ongoing medical follow-up until age 18
- 24-hour phone availability
- Teaching materials
- School support program
- Outpatient insulin pump program
- One-on-one visits with a social worker, and individual or group counseling with a psychologist
- Inpatient care and education
