

Questions to ask your child's medical team

1. Is my child at a greater risk for contracting COVID-19 because of his/her underlying health condition?
2. Is my child at a greater risk for severe COVID-19-related complications because of his/her underlying health condition?
3. How can I keep my child safe during COVID-19?
4. Can my child safely return to school in the fall?
5. Does my child need to wear a mask at school?
6. Does sending my other children to school/daycare put my child with an underlying health condition at risk for contracting COVID-19?
7. Will the medical team write a letter stating I need to stay home from work to care for my child?
