

Pharmacy Residency Preceptors

Pharmacy Leadership Team

Megan Ose, PharmD, MHSA, DPLA

Director of Pharmacy

Pharmacy Education: University of Wisconsin-Madison School of Pharmacy

Post-Graduate Training: Master of Health Services Administration from University of Michigan

When did you start at CW? 2014

Fun fact about yourself/why peds?: I was lucky enough to be matched with a pediatric APPE experience, which sparked my interest in caring for this population! In my free time, I enjoy traveling, golfing, and spending time with my family.

Jesse Cramer, PharmD, BCPPS

Pharmacy Operations Manager

Pharmacy Education: University of Wisconsin-Madison School of Pharmacy

Post-Graduate Training: Non-traditional PGY-1 at Children's Wisconsin

When did you start at CW? 2012

Fun fact about yourself/why peds?: I enjoy figuring out the unique, complex problems that come up in pediatric medicine that require critical thinking and creativity

Nitish Bangalore, PharmD, BCPS

Pharmacy Operations Manager

Pharmacy Education: University of Illinois – Chicago College of Pharmacy

Post-Graduate Training: PGY-1 at United Hospital/Children's Hospital of Minnesota

When did you start at CW? 2021

Fun fact about yourself: I grew up in Chicago. Don't hold that against me! I'm a Bucks, Brewers, and Packers fan. I am married to Jeanette and I have a son, Kiran, and a daughter, Divya. Though I was not a scout growing up, I am a volunteer leader of my son's Scouts BSA troop as well as a co-founder of a girl troop. My daughter was an inaugural member of that troop.

Tom Hanson, RPh

Pharmacy Operations Manager

Pharmacy Education: University of Minnesota

Post-Graduate Training: Certified in Epic Willow and Beacon

When did you start at CW? 1991

Fun fact about yourself: My primary hobby of rock climbing has taken me all over the United States from California, Wyoming, Arizona, Colorado, New Mexico and even South Korea. I enjoy road biking, tennis and traveling as time allows. For my career, I'm grateful that I was able to join the pharmacy department at Children's Hospital. It has been rewarding being a part of fighting illnesses for kids. Professionally, there's always something to learn in pediatric pharmacy which makes every day interesting.

Pharmacy Residency Advisory Council (RAC)

W. Scott Waggoner, PharmD, BCPPS

Residency Program Director

Pharmacy Education: Creighton University School of Pharmacy and Health Professions

Post-Graduate Training: PGY-1 at Children's Minnesota; PGY-2 at Children's Wisconsin

Rotation: Solid Organ Transplant

When did you start at CW? 2005

Fun fact about yourself/why peds?: I started at CW as a PGY-2 resident and I like to think I did a PGY-2 residency before it was cool! My research project during my PGY-2 year was starting a pharmacist service in liver transplant clinic which has grown to cover liver, heart, and kidney transplant clinics. It is

amazing to see kids get a new lease on life after an organ transplant! I love working with pharmacy residents because their desire to learn and be challenged reminds me of why I love pediatric pharmacy. When I am not at work, I enjoy spending time with my family, my dog, doing home improvement projects, cooking, and being part of the local martial arts community.

Jenny Moran, RPh, BCPPS

Pharmacy Education: University of Wisconsin-Madison School of Pharmacy

Rotation: Hematology/Oncology & Bone Marrow Transplant

When did you start at CW? 1989

Fun fact about yourself/why peds?: I love pediatric pharmacy because I learn something new every single day. In addition, my patients are inspiring because they can be super sick one day and playing in the hall with an IV pole in tow the next day! I love working with pharmacy residents because I learn a lot more from the questions and discussions we have than they will ever learn from me. Outside of work, I spend every minute that I can outside in both summer or winter enjoying time with my family, dogs, and friends. We hike, walk, ski, play games, and laugh!

Lynnea Braden, PharmD, BCPPS

Pharmacy Education: University of Wisconsin-Madison School of Pharmacy

Post-Graduate Training: PGY-1 at Children's Wisconsin

Rotations: Emergency Department & Trauma Center, Longitudinal Trauma Team

When did you start at CW? 2015

Fun fact about yourself/why peds?: My hobbies include reading and traveling. Some of the most beautiful scenery in the world can be seen in Switzerland! I was drawn to pediatric pharmacy because of the grey area of pediatric pharmaceutical care. Nothing is black and white in pediatric medication therapy and that allows the pharmacist to be an integral part of the multidisciplinary team.

Melissa Meuler, PharmD

Pharmacy Education: University of Wisconsin-Madison School of Pharmacy

Post-Graduate Training: PGY-1 & PGY-2 at Children's Wisconsin

Rotation: Pediatric Intensive Care Unit (PICU)

When did you start at CW? 2011

Fun fact about yourself/why peds?: I've loved pediatric pharmacy from the start but didn't fall in love with critical care until residency. My nephew has complex congenital heart disease and is treated here at Children's which enabled me to form a special bond with the staff and families in our CICU. I've been to 17 countries and 33 states - some of my favorite memories include getting engaged in Ireland, bungee-jumping in New Zealand and mushing sled dogs on an Alaskan glacier. I also enjoy a good competitive board game night -- I once lost the best out of 100 game cribbage series 49 to 51.

Stephanie Pizzino, PharmD, BCPPS

Pharmacy Education: University of Wisconsin-Madison School of Pharmacy

Post-Graduate Training: PGY-1 & PGY-2 at Children's Wisconsin

Rotations: Hematology, Oncology & Bone Marrow Transplant

When did you start at CW? 2013

Fun fact about yourself/why peds?: No day is the same in pediatric medicine which is why I love it so much. Pediatric pharmacists thrive in the gray area and it's uniquely rewarding to provide care outside our comfort zones for the small yet mighty. I consider myself fortunate to work with such a devoted and passionate group who come to work every day to do what's best for our patients and teach the next generation of pediatric pharmacists. I relish the time outside of work with my husband, two boys, and our pup,

Archie -- we love tinkering on home improvement projects, visiting local coffee shops and breweries, and releasing our energy outdoors as much as we can.

Pharmacy Residency Preceptors

Abby Mabie, PharmD

Pharmacy Education: Medical College of Wisconsin – School of Pharmacy

Post-Graduate Training: PGY-1 at Ascension St. Joseph

Rotation: Central Pharmacy/IV Room

When did you start at CW? 2023

Fun fact about yourself/why peds?: I have always been interested in pediatric medicine because it is such a gray area of pharmacy and full of innovation. I truly learn something new at work essentially every day! In my free time I enjoy cooking, watching TV, attending Packers and Brewers games, listening to Taylor Swift, and spending time with my husband and two cats.

Anna Kissell, PharmD, BCPPS

Pharmacy Education: University of Pittsburgh – School of Pharmacy

Post-Graduate Training: PGY-1 at Children's Wisconsin

Rotation: Neonatal Intensive Care Unit

When did you start at CW? 2009

Fun fact about yourself/why peds?: My favorite part of practicing in pediatrics is solving complex medication problems for our patients creatively & safely. In my free time I enjoy hiking, gardening, crafting, reading nonfiction, and spending time with my husband & our 2 cats.

Brianna Mayer, PharmD, BCPPS

Pharmacy Education: University of Wisconsin – Madison School of Pharmacy

Post-Graduate Training: PGY-1 at Children's Wisconsin

Rotation: Neonatal Intensive Care Unit

When did you start at CW? 2017

Fun fact about yourself/why peds?: Working in an environment surrounded by kids and surrounded by people who love working with kids is so fun and rewarding! Pediatric medicine is full of unique clinical scenarios so I feel like I am constantly learning new things and brainstorming creative solutions to provide the best patient care. Outside of work I love to travel, spend time outside, and try new recipes and restaurants!

Chris Leuenberger, PharmD

Pharmacy Education: University of Wisconsin – Madison School of Pharmacy

Post-Graduate Training: PGY-1 at Ascension All Saints Hospital

Rotation: Central Pharmacy/IV Room

When did you start at CW? 2017

Fun fact about yourself/why peds?: I enjoy working here because of the impact that we make on our patients lives everyday. Some of my hobbies include traveling, camping, skiing, and I am big marvel/star wars fan.

Hannah Wolfram, PharmD

Pharmacy Education: Concordia University Wisconsin – School of Pharmacy

Post-Graduate Training: PGY-1 at Children's Wisconsin

Rotation: General Medicine

When did you start at CW? 2015

Fun fact about yourself/why peds?: I appreciate the challenge associated with pediatric pharmacy and am frequently amazed by the resiliency of this patient population. Outside of work I can be found (happily) chasing around our toddler twin boys and two dogs with my husband!

James Larson, PharmD

Pharmacy Education: University of Wisconsin – Madison School of Pharmacy

Post-Graduate Training: PGY-1 at Wheaton Franciscan Healthcare – St. Joseph Campus, Milwaukee

Rotation: Central Pharmacy/IV Room

When did you start at CW? 2020

Fun fact about yourself/why peds?: I have worked in a hospital pharmacy in some capacity since 2005, and have always been drawn to the challenges presented by pediatrics. Professionally, my focuses are neonatal care, solid organ transplant, and antimicrobial monitoring. I enjoy traveling to new places with my wife, trying different craft beers, and going to Packer games!

Jena Jastrow, PharmD

Pharmacy Education: University of Wisconsin – Madison School of Pharmacy

Post-Graduate Training: PGY-1 at Children's Wisconsin

Rotation: Multi-Disciplinary Clinic

When did you start at CW? 2005 as a tech, 2009 as intern, 2011 as resident

Fun fact about yourself/why peds?: I fell in love with CW and pediatric pharmacy when I started as a tech in 2005 and they have never been able to get rid of me. I have interests in several different areas so can be found in the ED, PICU, and primarily now in the outpatient clinics for solid organ transplant, complex care, and cystic fibrosis. Outside of Children's I spend my time with my three young children and enjoy traveling anywhere and everywhere, occasionally still with my co-residents Melissa and Jamie :)

Justin Staubli, PharmD

Pharmacy Education: University of Wisconsin – Madison School of Pharmacy

Post-Graduate Training: PGY-1 & PGY-2 at Children's Wisconsin

Rotation: Emergency Department & Trauma Center

When did you start at CW? 2020

Fun fact about yourself/why peds?: I love the unique practice setting of pediatrics requiring pharmacists to practice at a much higher level, but the true reason I chose pediatrics is because of the patients. The courage, resilience, and grace these kiddos display while facing overwhelming adversity is inspiring and motivates me to operate to the best of my ability every single day. When not staffing, you can find me trying out new restaurants or breweries or traveling to a new national park!

Katie Wierer, PharmD, BCPPS, BCCPS

Pharmacy Education: University of Wisconsin – Madison School of Pharmacy

Post-Graduate Training: PGY-1 at Children's Wisconsin

Rotation: Pediatric Intensive Care Unit (PICU)

When did you start at CW? 2007

Fun fact about yourself/why peds?: I first was exposed to pediatric pharmacy as an APPE student at Children's Wisconsin, loved it, and have been lucky enough to work here ever since! In my free time I love hiking and snowshoeing with my husband and 3 kids, reading, and crocheting.

Kayla Huebner, PharmD, BCPPS

Pharmacy Education: University of Wisconsin – Madison School of Pharmacy

Post-Graduate Training: PGY-1 at Le Bonheur Children's Hospital; PGY-2 at Children's Minnesota

Rotation: PGY-2 General Medicine, PGY-2 Precepting

When did you start at CW? 2022

Fun fact about yourself/why peds?: I'm originally from WI and continue to be happy working here after training and working out of state. I absolutely love being a pediatric pharmacist and all of the clinical challenges, inter-professional connections, and teaching opportunities we encounter on a daily basis. I have loads of Wisconsin pride (GO Badgers/Packers/Brewers/Bucks!) and when I'm not at work I enjoy spending time with my crazy

yellow lab Lincoln, seeing family, going Up North, cooking/baking, crafting, trying new breweries in Milwaukee, and traveling when I get the chance.

Meghan Belden, PharmD, BCPPS

Pharmacy Education: University of Wisconsin – Madison School of Pharmacy

Post-Graduate Training: PGY-1 at UnityPoint Health – Meriter Hospital

Rotation: General Medicine, PGY-2 Precepting

When did you start at CW? 2014

Fun fact about yourself/why peds?: I enjoy traveling and all kinds of watersports like fishing, waterskiing and paddle boarding. My husband and I volunteer as foster parents for the Wisconsin Humane Society and our rescue pup, Ranger, is our pride and joy. Practicing pediatric pharmacy is so rewarding and our patients inspire me every day.

Meghan Wagner, PharmD, BCPPS

Pharmacy Education: University of Mississippi – School of Pharmacy

Post-Graduate Training: PGY-1 at Penn State Milton S. Hershey Medical Center PGY-2 at Children's Wisconsin

Rotation: General Medicine & PCPC Chair

When did you start at CW? 2014

Fun fact about yourself/why peds?: I love pediatric pharmacy first and foremost because I get to take care of the cutest and most resilient patients! I also love all of the clinical challenges that come with pediatric pharmacy and working within a team to develop care plans when there is not always an easy and obvious answer. Outside of work, I like reading, rock climbing, cooking, and playing with my giant dog, Sonnett.

Rachael Jaszczenski, PharmD

Pharmacy Education: Medical College of Wisconsin – School of Pharmacy

Post-Graduate Training: PGY-1 at Children's of Alabama

Rotation: General Medicine

When did you start at CW? 2016

Fun fact about yourself/why peds?: Once I decided that I wanted to pursue pharmacy, I also knew I wanted to practice in pediatrics. I love the resiliency of the population - I am amazed every day at what some of our patients do! My personal life is run 99% by my two dogs, Piper and Brynn and 1% by my husband, Matt. We love trying new restaurants/breweries and traveling... anything that is dog friendly!

Sarah Seward, PharmD, BCPS, CPHIMS

Pharmacy Education: Concordia University School of Pharmacy

Post-Graduate Training: PGY-1 at Ascension – St. Francis Hospital; PGY-2 at Hospital Sisters Health System – St. Elizabeth's Hospital

Rotation: Informatics

When did you start at CW? 2019

Fun fact about yourself/why peds?: I love to travel! In non-COVID times I'm always planning a trip somewhere. I'm also a foodie, and love trying new things. I may not like it, but at least I tried it! I love pediatric medicine, because it's a real test of the capabilities of the electronic medical record system.

Tracy Zembles, PharmD, BCPS-AQ ID, BCIDP

Pharmacy Education: Drake University (Des Moines, IA)

Rotation: Infectious Disease & Antimicrobial Stewardship

When did you start at CW? 2004

Fun fact about yourself/why peds?: I like to run, read, and do puzzles. I also enjoy spending time with my family and going on vacations. My favorite vacation spot is Hawaii. Pediatric ASP is my area of interest professionally, though I have previously worked in critical care. The most interesting challenges for me are infections in critically ill patients.
