

For girls before puberty

Hygiene is a very important part of overall health. It is important to keep the vaginal area dry and clean. This will help avoid irritation and infections.

Follow these tips for your child:

Have your child:	Don't let your child:
<ul style="list-style-type: none">• Wear cotton underpants. If needed, change panties mid-day.• Wear a nightgown without underpants.	<ul style="list-style-type: none">• Wear tights, leotards, thong panties or sleeper pajamas for a long period of time.
<ul style="list-style-type: none">• Take a bath or shower each day. Wash in clean water for no more than 7 minutes. Wash with mild, unscented soap just before getting out of the tub.• After the bath, rinse the vaginal area well. Gently pat the area dry. Do not rub.	<ul style="list-style-type: none">• Use bubble bath, perfumed or scented soaps or lotions.
<ul style="list-style-type: none">• Wipe gently from front to back after going to the bathroom.• For sensitive skin, use wet wipes instead of toilet paper. Make sure the wipes are unscented, hypoallergenic.	<ul style="list-style-type: none">• Stay in a wet swimsuit or sweaty exercise clothes for long periods of time.
<ul style="list-style-type: none">• Use a hypoallergenic laundry detergent to clean undergarments.	<ul style="list-style-type: none">• Use fabric softeners in either the washer or dryer.
<ul style="list-style-type: none">• Use a cool, clean washcloth if the area is tender or swollen.• Talk to your healthcare provider if you think your child needs skin protectant.	

ALERT: Call your child's doctor, nurse, or clinic if you have any questions or concerns or if your child has special health care needs that were not covered by this information.
