

Stepping Stones to Home with Seizures for _____

What I need to know and do to get us ready to go home.

I can tell you about my child's seizures.

I can tell you how to keep my child safe during a seizure.

I can tell you what will help my child keep from having a seizure.

I can tell you when and how to give rescue medicine for a seizure.

I can tell you my child's rescue plan for seizures.

I can tell you when and how to give my child's medicines.

I can tell you about my child's medicines.

I can tell you who to call if I have a question or concern.

I can tell you when I should call 911 or go to the emergency room.

I can tell you about my child's follow-up appointments.

You and your child are ready to go home!

Finish

Stepping Stones to Home

Being in the hospital can be stressful for you and your child. Before you take your child home, we will work with you to plan for your child's discharge. We want to make sure you know what to do and how to do it. We will make sure you:

- Understand your child's condition, treatments, and medicines.
- Know what problems to look for, what to do, and who to call if you have questions or concerns.
- Feel ready to take your child home.
- Have an interpreter if you need one.

This process will start when we first meet you. We will use this *Stepping Stones to Home* sheet. It helps us make sure you understand what is important to care for your child. Every circle is something you may need to know about.

We will talk about your child's care every day. We will ask you to tell us about the items on the stones. We want to make sure we explained everything you need to know in ways you understand. If we are not clear, we will explain it another way.

If you don't understand something about your child's care, please ask. It is very important that you are comfortable and feel confident to take care of your child safely at home.
