

“Bright Star” lyrics

Chorus:

You've got that hope inside
Let your heart open wide
Don't be afraid, there's always a way
To shine your light, bright star
You've got that hope inside
Let your heart open wide
Don't be afraid, there's always a way
To let your light shine

Verse 1:

As you grow older and life starts to open
There's a chance for hearts to get broken
You'll see folks around you start smokin'
Just so you know, there's better ways of copin'
Than alcohol, tobacco, marijuana,
You may hear people say come on you know you wanna
But if you just stay connected to your people
Friends and family, the ones who really see you
Then you won't need to run away
From the situations you face every day
You can say no to what won't help you grow
And you can say yes to anything that's fresh
Music, sports, clubs, stories
Set goals like becoming a good goalie
You can stand firm in who you really are
And shine that light cuz you are a bright star

Chorus

Verse 2:

There's so much that you've got to offer
Young leader, you're an author
So what kind of story you wanna write
You can tell it by your actions and the way you live your life
Start with a problem, see if you can help solve it
Is there a group that you could get involved with
Like being a friend to someone with disabilities
There are so many cool possibilities
For you to build your skills and gain confidence
Talent shows, science experiments, all of it

Even if it doesn't come very easy
Keep practicing and seizing the day
On piano keys or the strings of a guitar
Don't be afraid to work really hard
And choose your friends that like you for who you are
And shine that light cuz you are a bright star

Chorus 3X

So bright, that's right
So bright, that's right
Don't be afraid, let your light shine
