

Educator Guide: “For Your Health” Song

Recommended for Grades:

6th grade

Time:

3 minutes

National Health Education Standards:

This activity aligns with the following National Health Education Standards:

- Standard 1: Use functional health information to support health and well-being of self and others.

For more information about the National Health Education Standards, visit the SHAPE America website: shapeamerica.org.

Learning Objectives:

After completing this lesson students will be able to:

1. Describe at least three healthy behaviors (including one that specifically helps keep the mind healthy) they can do each day.

Activity Description:

“For Your Health” is a fun, high energy song written and performed by The Figureheads. The song talks about making healthy nutrition and physical activity choices each day. It may be fun for each student to get a copy of the song lyrics to sing along and think about what the lyrics mean.

Vocabulary:

Use the following list of vocabulary as a reference for yourself or your students as you complete the “For Your Health” Song. You may choose to use this list in any way that fits your needs.

- Exercise – activity requiring physical effort, done to sustain or improve health and fitness
- Protein – a nutrient found in food that builds, maintains and repairs the tissues in the body
- Refined grains – grains that are not whole because they are missing one or more of their three key parts (bran, germ or endosperm)
- Type 2 diabetes – a condition where the body’s cells cannot use blood sugar efficiently for energy
- Whole grains – grains that contain 100% of the original kernel (all of the bran, germ and endosperm)

“For Your Health” Lyrics

Chorus:

When I look at all the problems with the world and with myself
When that junk food and that soda got me feeling not so well
Then it makes me wanna put some healthy food up on my shelf
And yell to anybody that'll listen - This is for your health
This is for your health
This is for your health - for your health

Verse 1:

Now I'm tripping off the fact that all these sugars and these fats
Got me hungry for what I don't even need let me step back
And think about the nutrition that's been right here since the beginning
That natural energy is the stuff that keeps us spinning
Get that water in my system, let me glisten, let me shine
Get some fruit up in my roots, help to clarify my mind
Protein, dairy and some veggies, 'lil grain all combined
That's exactly what I need to get it movin' every time

Chorus

Verse 2:

Now I'm tripping off these images from magazines and shows

Tellin' me to look a certain way on all these videos

I just wanna be myself taking small steps for my health

But it's hard when everybody's tryin' to be somebody else

So I leave that mess behind take it one day at a time

Go outside a little more, exercise first then recline

Cuttin' down on that refined stuff so I can re-find

A healthy body and a healthy mind that I can call mine

Chorus

Bridge:

Simple decisions can make for better living - every day is a new beginning

Greens, proteins, dairy, grains and fruit

Eat the good stuff that puts nutrition deep in our roots

And if we start now we can avoid problems later

Obesity, diabetes and heart failure

Chorus
