

Children's E-Learning Center Quick Start Guide

1

Navigate to our homepage.

You can find all of our online health education content here:
childrenswi.org/elearningcenter

2

Select a topic.

Alcohol and other drug abuse prevention, bullying prevention, educator training, mental and emotional health, nutrition and physical activity, safety and injury prevention

3

Click on the plus sign to open activities by grade level.

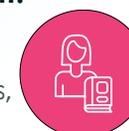

A list of lessons, games, and activities will appear for the selected grade level. Click the name of the activity to view it.

4

Review the educator guide before delivering the content.

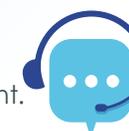

Under the "For Educators" section, you will find the educator guide. This guide includes: national education standards, learning objectives, vocabulary and an activity description.

5

Need extra help? We are here for you!

Feel free to reach out to the E-Learning Center team if you have any questions or need assistance accessing or delivering our online content.
