

What You Need to Know About – CRU

Clinical Resource Unit

The Clinical Resource Unit (CRU) is the internal float pool. It consists of direct care staff who work on the various inpatient units and in the EDTC. Nurses float primarily to either the routine care floors (acute care cluster) or the critical care units (critical care cluster).

Location	Office in off stage on W12
Getting Assignment	Call the staffing hotline 266-2776. The hotline is updated Q4hours, except at night. Messages available at 0530, 0930, 1330, 1730, 2130
